SECONDARY BULLETIN

MR DAVID KEERY

MESSAGE FROM THE HEAD OF SECONDARY

Dear Parents,

I would like to begin by thanking you for your continued patience as we have been setting up Class Dojo and Microsoft Teams across the school. The process of setting these systems up does take longer than it would in the primary school due to the secondary timetable having so many moving parts. We are pleased to inform you that both systems are now up and running. If you are having problems with either system please contact your child's form tutor in the first instance and we will endeavour to get things sorted out quickly.

We are pleased to share that homework is now being set through Microsoft Teams. Should you have any issues regarding homework, please contact your child's class teacher directly for support.

A special thank you goes to our wonderful PTA, who have been giving their time to support the school. Their help with the Thursday popsicle sale has been greatly appreciated by students and staff alike.

Attendance and Punctuality

We would like to remind all families of the importance of regular attendance and punctuality. School begins promptly at 7:15 a.m. Any student arriving after 7:25 a.m. will be recorded as late. Being on time ensures students begin their day calmly, fully prepared for learning, and helps develop excellent habits for the future.

Today we also celebrated the International Day of Peace. It was inspiring to see our students looking fantastic in white and actively engaging in activities designed to reflect on the importance of peace in our communities and beyond. Furthermore, to encourage our students to become excellent readers we are holding a book fayre in the atrium this week. Please come and support this initiative.

Warm regards,

Mr David Keery
Head of Secondary School

MESSAGE FROM THE HEAD OF SECONDARY

Upcoming Events

High Achiever Awards for
Term 3 2024/25
Wednesday, 1st October

Year 9 IGCSE Information Day
Wednesday, 8th October

COMMUNICATIONS

Please reach out to your child's form tutor initially. If your concern persists, please get in touch with our Pastoral lead at k.chung@rgsgq.com for non-academic matters.

For academic concerns, please begin by contacting your child's subject teacher. If the issue remains unresolved, please contact our Assistant Head of Teaching and Learning at m.antoniou@rgsgq.com

Focus on IGCSE ENTERPRISE PROJECT

LAUNCHING THE IGCSE ENTERPRISE PROJECT: A ROOM FULL OF IDEAS

Today marked the exciting start of the Year 10 IGCSE Enterprise project, and the energy in the room was electric. Far from a quiet classroom, it was alive with laughter, discussion, and the sound of students bouncing ideas off one another.

A Space for Creativity

The atmosphere was one of collaboration. Instead of working in isolation, students became critical friends—offering constructive feedback, challenging assumptions, and asking the questions that sharpen ideas. This process helped everyone see their projects from new perspectives and build confidence in presenting their initial thoughts.

Exploring Possibilities

From the very beginning, students showed curiosity and ambition. Conversations stretched from “What if...?” scenarios to practical considerations about customers, resources, and challenges. Some ideas were bold and daring, others practical and grounded—but every single one was filled with potential.

Learning Together

The most powerful aspect of the session was how students supported each other. Being a critical friend isn’t just about pointing out what needs improvement—it’s about celebrating strengths, encouraging innovation, and helping refine an idea into something even stronger. The room became a mini-enterprise hub, where teamwork and creativity went hand-in-hand.

Looking Ahead

This is just the first step in what promises to be an inspiring journey. Over the coming weeks, Year 10 students will turn these early sparks into fully developed business projects. They will test ideas, make mistakes, learn quickly, and grow into more confident entrepreneurs. If today is anything to go by, this group is ready to take on the challenge with energy, imagination, and resilience. The IGCSE Enterprise project has well and truly begun—and it’s shaping up to be something special.
